

# Ozone Pollution

## : Status & Its Health Effect

Dear Participants,

The Ph.D. Program in Environmental Technology, Faculty of Public Health, Mahidol university cordially invite you to participate in the seminar entitled "Ozone Pollution: status and its health impact". Seminar covers health effects, the basic chemistry, and then describe how the chemistry can be added to a kinetics model. We will then make the class think like industry or PCD people, and use the model to illustrate how O<sub>3</sub> control strategies can be implemented and how we can make mistakes with the wrong policy.

## Schedule

13.00–13.15: Registration

13.15–13.30: Opening Speech

13.30–15.45: Topic "Ozone pollution: status and its health effect"  
by Prof.Dr.Richard Kamens (University of North Carolina, USA)

15.45-16.00: Open for discussions
