Department of Sanitary Engineering

รศ.ดร.จงจินต์ ผลประเสริฐ

CHONGCHIN POLPRASERT, Ph.D.

Position: Associate Professor
E-mail: chongchin.pol@mahidol.ac.th

Education

Ph.D.(Environmental Engineering), Illinois Institute of Technology, USA
M.Eng.(Environmental Engineering), Asian Institute of Technology, Thailand
B.Eng. (Environmental Engineering), Chiangmai University, Thailand

Expertise

1.Biochemical Engineering – Application of mathematical modeling to biological processes and biological waste treatment
2.Water Chemistry – Fundamental and advanced principles of environmental chemistry; its application to water and wastewater treatment engineering
3.Pollutant Transport – Movement of chemical in air, water, and soil

Research Interests and Field of Specialization

Biological process
Waste recovery and recycling
Application of carbon-balanced model for sustainable development
